# ESTAMPAGEM COM PRECISÃO

ALTA VELOCIDADE E BAIXO CUSTO

Os métodos de estampagem de metal produzem grandes volumes de produtos e peças com precisão uniforme

# CARACTERÍSTICAS TÉCNICAS

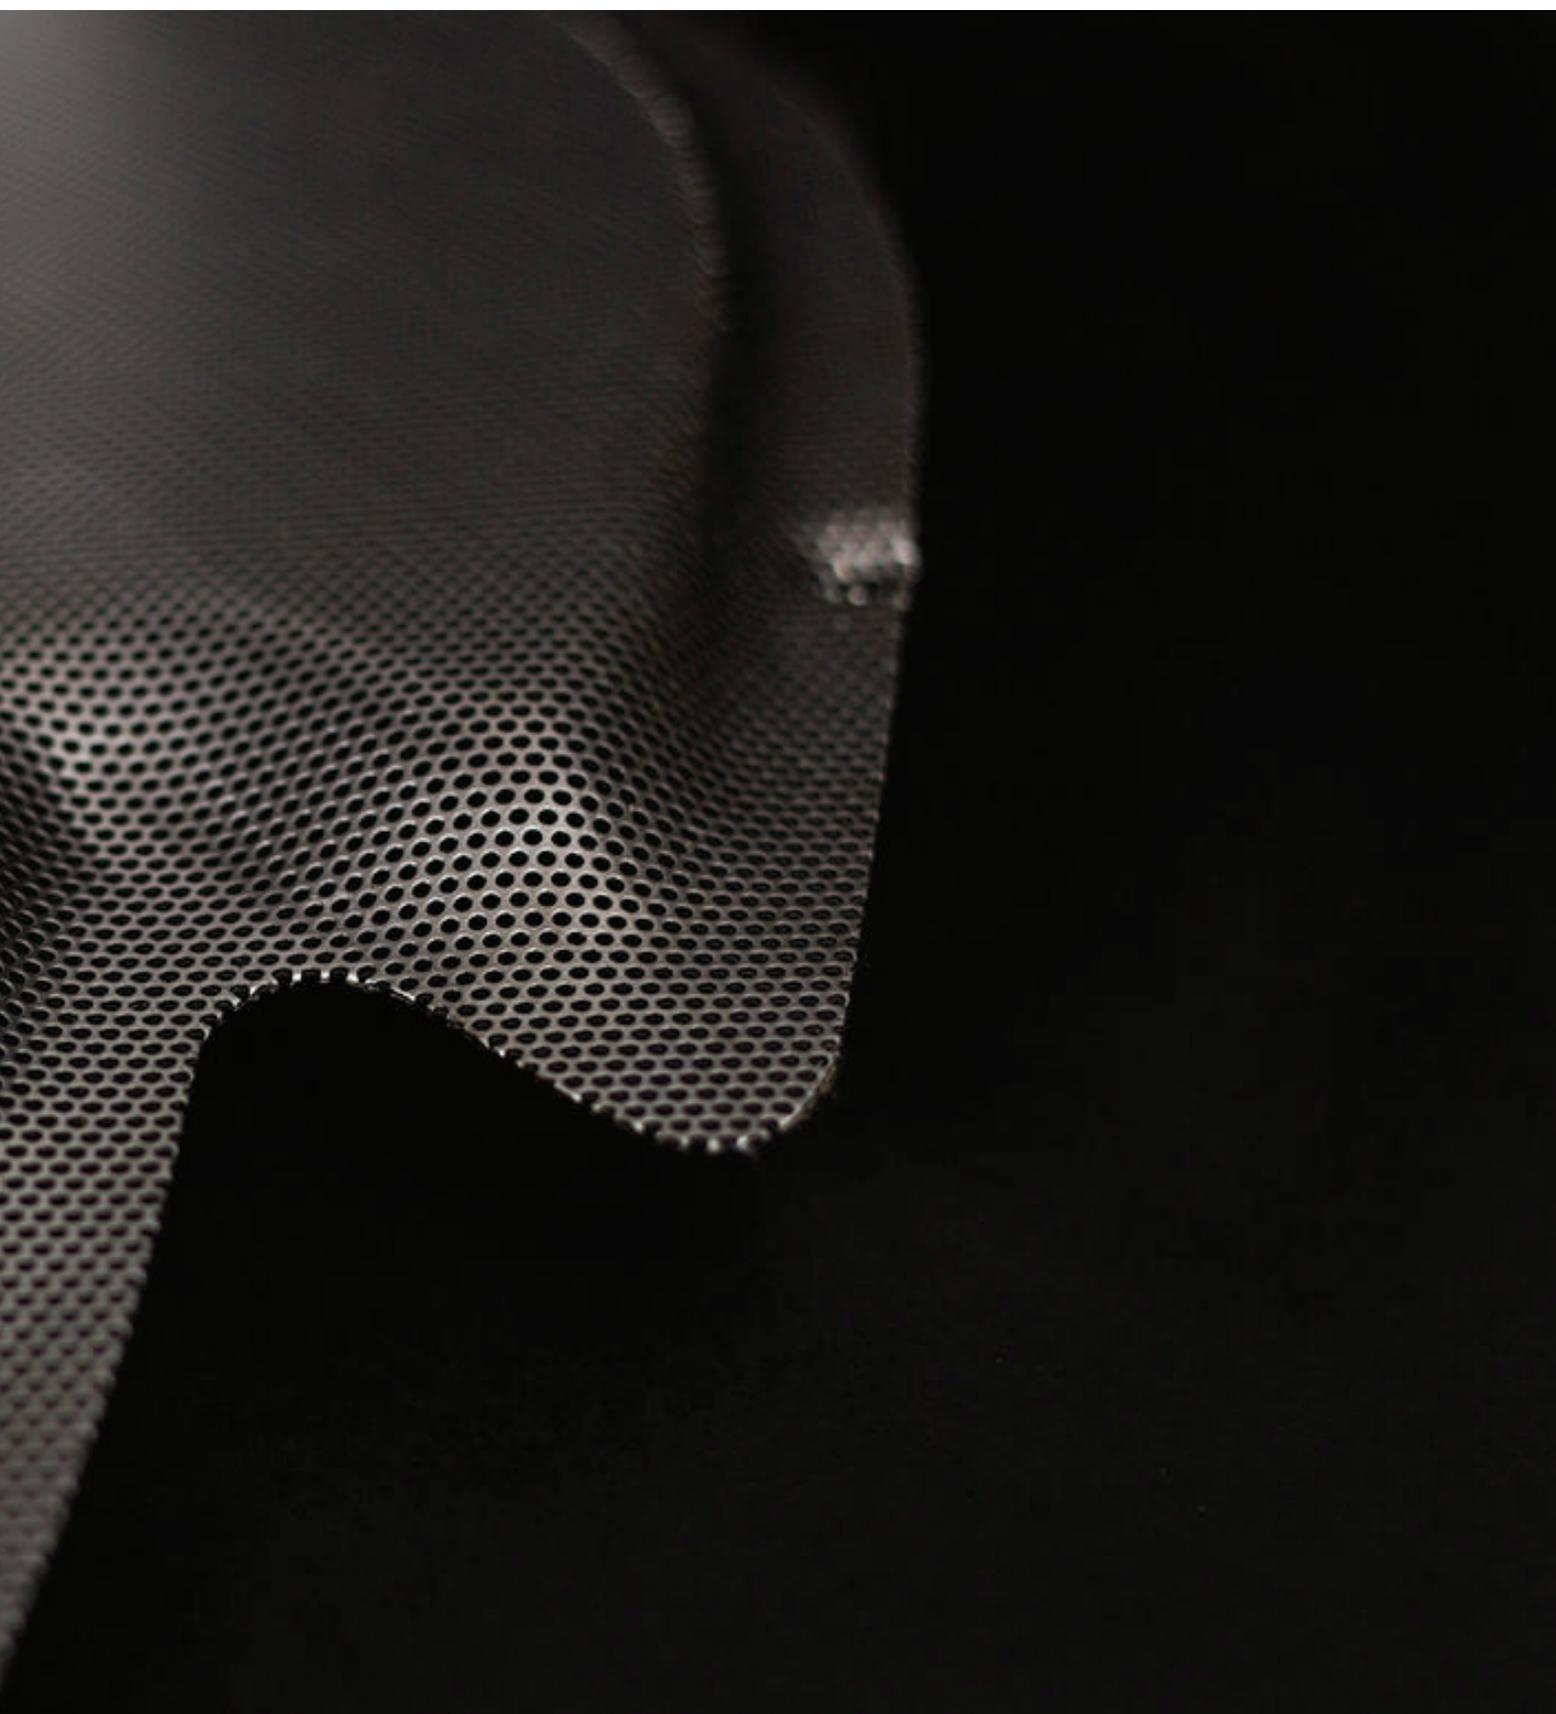

---

As prensas de estampagem de metal são capazes de produzir peças bidimensionais e tridimensionais, com base em técnicas de estampagem, corte e conformação.

O produto estampado ele sai conformado com as dobras e repuxos, também oferecemos a peça pintada com certificação automotiva conforme especificação do comprador, pintura em KTL E-coating, pintura a pó epoxi.

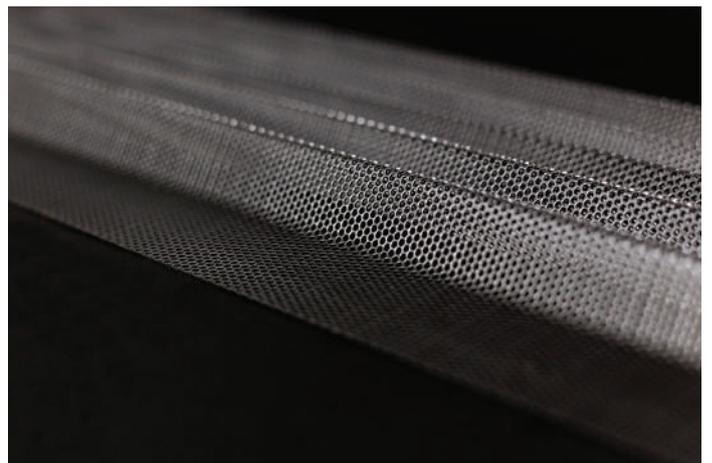

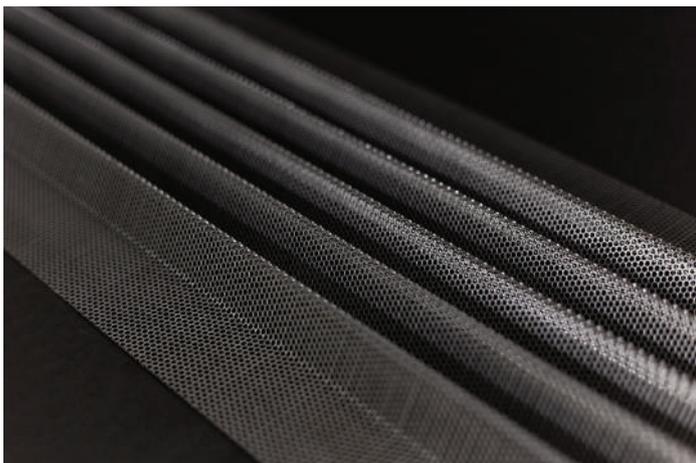

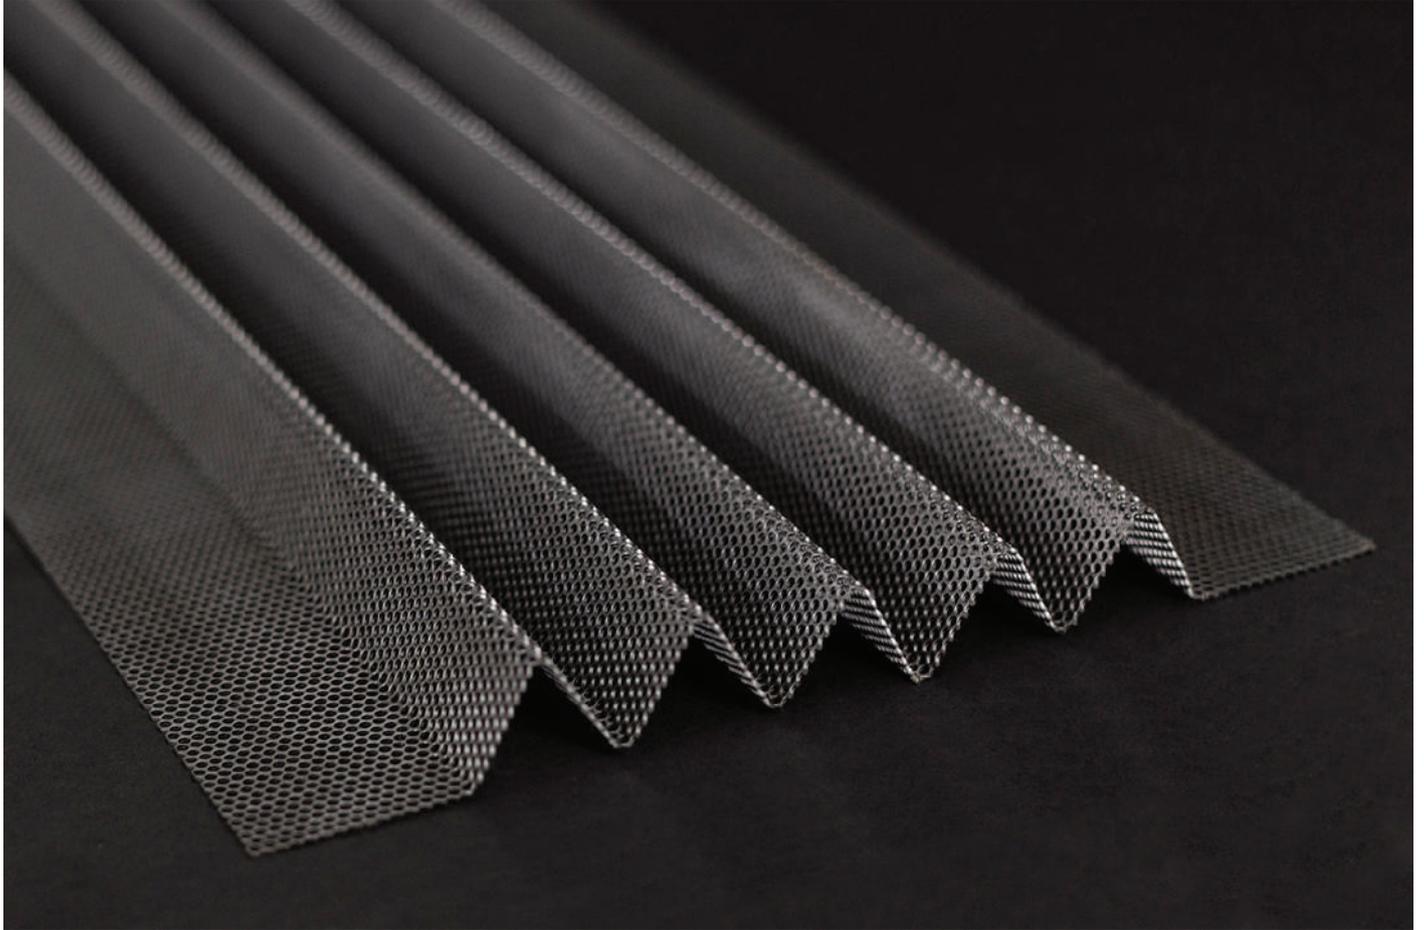

Os serviços de estamparia de metais são rentáveis, pois o processo é capaz de produzir peças e materiais de modo intensivo e em níveis de produção em grande escala. As peças de metal estampadas são precisas e altamente resistentes.
